

## ROBBERS CAPTURE PURSUERS THEN MAKE THEM DO THE WORK

Grant County Desperadoes Are Still at Liberty and Three Parties Are On the War Path Looking for Them.

### DEPUTY PORTWOOD WAS NOT WOUNDED

#### Special Correspondence to the Herald

Silver City, N. M., Aug. 12.—Three well organized posse are in the field in an endeavor to capture the bold bandits that yesterday held up state's attorney John M. Sully, Mr. Braden, engineer of construction at Ray, Arizona; Charles E. Huff, resident engineer of construction at Santa Rita, all officials of the China Copper company, operating on an extensive scale at Santa Rita.

The holdup was effected by these masked men and as many bringling Winchesters at an unexpected moment while the mining superintendent and officials were en route to Hurley, where the large concentratior plant is located. The highwaymen are supposed to have acted upon the supposition that the officials were conveying a large sum of money to Hurley, for the purpose of paying off its numerous employees, yesterday or the pay day at the camp.

Fortunately, the purpose of the bandit attack was upon an entirely different mission and the robbers secured only the sum of about \$80 and the watches of the officials. Having previously cut all wires, the robbers removed vital portions of the machine and left the surprised party afoot some distance from the activities of the camp. Walking to Bayard station, Mr. Sully notified other residents and soon there was a posse in the field, headed by Deputy Sheriff Portwood. This posse later was captured by the robbers instead of capturing them and the members were forced to do work in moving the bandit camp farther back into the rough mountains. Portwood was holding the horses of the posse at the time of the capture of his companions and upon their failure to return, he went back to camp and there organized another posse, or more properly speaking, as the report comes here, a resuming party. The captured portion of the posse later walked back camp. Three well organized bodies are now in the field and although trailing the bandits throughout the night, they had not effected a capture up to this afternoon, but it is believed that it will be impossible for the bandits to escape as the country is well surrounded and every effort is being made to take them before they get out of the nearby mountains. Deputy Portwood was not injured.

## PEACE TREATIES NOT ACTED UPON

Senate May Not Get Around to Ratifying Agreements With England and France for Arbitration Pacts.

#### By Evening Herald A. P. Leased Wire

Iola, Kan., Aug. 12.—Mrs. Edna Hersee, who after four days in jail, threatened with a period of work in the city rock pile, was pardoned yesterday by Mayor Hollingshead and remained over the protest of Judge U. H. Smith, who sentenced her, was arrested again today and is back in the old cell.

This time the charge is contempt of court. She was subpoenaed to appear in a trial today. She was arrested on a bench warrant issued by Judge Simms, as she was about to leave the city.

#### By Evening Herald A. P. Leased Wire

Washington, Aug. 12.—The arbitration treaties with Great Britain and France were considered by the senate in executive session today. The discussions lasted only two hours and was without result. Much opposition developed, leading some of the friends of the agreements to doubt whether they can be ratified at the time even in amended form.

The senate committee on foreign relations today agreed to recommend the ratification of the arbitration treaties with Great Britain and France as amended so as eliminate the paragraph conferring on the long high commission the right to determine what international questions are justly under the terms of the treaties. The president has informed members of the convention however, that he will exert himself to the utmost to insure inclusion of this paragraph in the ultimate action of the senate.

The paper did not act on this information, explaining that he left earlier than in the column which mentioned at times yesterday. The paper in his letter contained but were less severe. The swelling, which diminished yesterday, has since remained stationary.

This afternoon the approach of a violent electrical storm caused the paper a headache and a feeling of oppression.
